

Additional document 1: Country grid

The monitoring protocol will be carried out in the 19 programme- and attention countries of FNV Mondiaal. In each country the emphasis of the cooperation will lay on certain number of objectives of the Decent Work agenda, as formulated in our most recent 4 year plan for the period 2009-2012. This emphasis will decide on which indicators we will monitor in each country. So we will not monitor all DW-indicators in all 19 countries. In order to know on which DW-indicator per country we should monitor we refer to the overview below (“grid”).
